Changes Ordered In Local County Building Design

Minor changes in the interior design of the proposed new county building for the eastern end of the county were suggested to meet local needs when the building committee met here Friday with Architect Malcolm Mau and H. G. Loehr, chairman of the board of supervisors.

Mau said the changes, which will provide ample office space for various agencies using the building, will be ready for final approval within a few days.

The new 80x80 structure, to be located on land purchased from Richard Joseph just east of the Tahoe Forest Hospital, will have a new jail and sheriff's department, a justice court and a combined building and heatlh department office. Also included in the plans will be a general office provided with a liaison officer to offer service for various county agencies including the offices of assessor, clerk, recorder, tax collector, welfare department, veterans officer, probation officer and social security service.

Plans would also include space for the state employment department and other state agencies which visit infrequently, but which have no meeting place.

District boards such as the fire district, cemetery district, sanitary, airport and recreation district would be provided with a meeting place, under the revised plans.

Modern jail and sheriff's department facilities are embraced in the plans and a general meeting room could be arranged.

Members of the board are Stan Halls, chairman, Al Casey, Howard Bennetts, Dale Smith and Jack McGlade. All were present at Friday's meeting as guests of Supervisor Loehr.

VACATION TIME: "Bouncy Dale"—makes the print the second time. Off for a two weeks way-cation as she had no plans. Just "anyway the wind blows" says Dale. (We've always kind of wanted to take a way-cation ourselves Nothing planned, nothing banned—the "road runs both ways" kind of thing. And with all of these new side roads marked with the exciting names. Don't you just yearn, for instance, to turn off at Secret Town as you are traveling toward the west? When someone says to me—"wouldn't you like to really travel?" meaning foreign countries—I usually answer "heck, no. I just want to see all of California." And with the tremendous population increase I'm scared I'm not going to make it until its all filled up. And then I'll always regret the beauty that was there all the time.

An that Soda Springs junket to Las Vegas is in expedition as of this minute. I look at my watch and wish I were going with Ron and Jeannie Sweet, and Joyce and Bill Vandergrift, and "Henry" and George Gangler. This double trio who talked of doing something exciting like going on a safari to Las Vegas, for instance, did a daring do or die thing and went.

We kind of like that Auburn deal—Where the town folks will get together—charter a bus—and go to Seattle for the Fair. Imagine all neighbors chartering a bus and going to the fair. Renewing old friendships, making new ones and having a common thing to chat about for years to come.

And I guess all of this will let you know that we are getting kind of "itchy" ourselves.

And I guess you couldn't call it a vacation—but its the start of a new journey for Gerald Francis Nelson—our Jerry Nelson of the Atkinson outfit who was one of the fortunate chosen to stay with the "riggin" this past winter and became part of our family. For at 2 p. m. last Saturday we read from our invitation—that Jerry took one Betty Jane Balkow to become his lawful wedded wife.

And Jerry's Pal Jim Porten just returned from his vacation which was spent in La Jolla just "lolling around and getting sun soaked" in time to make the big event.

And we guess that Eli and Carol Carder took off for some place or another because we noted Liz Pierson with their small Kelli in charge.

Betty and Edvi Aro made the ski instructors convention do for their vacation—as did John Johansen.

And Dorothy and Bill Cannon packed a small zipper bag which held dog food and stuff like that—put their huge Huskie "Notchie" in the back of their station wagon and took off for Idaho for a few days.

DIVOT-DIGGERS

By BETTY KIELHOFER

By now we are all aware of the fact that Jackie Jensen and Alex Stewart have leased the golf course with an option to buy in 36 months or less. We feel as most everyone else does. It couldn't be better. If these men can't make it produce with their experience then we would have to admit it was all a big mistake but I'm sure we'll never have to concede that.

Now we should see the course operated as it was intended and all our predictions as to its value to the community should come true. They stated they would not be enlarging the club house this summer but instead will concentrate on black-topping the parking area and putting the course in first class shape.

They are hiring three fellows to assist Cliff in this job so there's proof-positive that they are really serious and are going at it in a big way.

Saturday and Sunday were 'get acquainted days for the new lessees with free golf for everyone and well wishers wandering in and out all day despite the cold weather. They will officially take over on Wednesday of this week. Our thanks go to Carson White for introducing Mr. Jensen and Mr. Stewart to our area and to Mr. Longo who went 'beyond the call of duty' in his position as Utility manager and worked overtime in many capacities to help expedite this transaction. Mr. Pat O'Melia of Whittier, who made the first offer to purchase and consequently was responsible for getting it on the market, congratulated the successful bidders and we owe him a vote of thanks also for getting the ball rolling.

He was not too disappaointed as he feels something else will come along to his liking as he has great confidence in the potential of business here and will be a terrific booster when he finally makes the move.

To Clarence Osburn, also an unsuccessful bidder, we give much credit as he was the only local person with enough confidence in the project to offer his hard earned money for its continued operation. Without Clarence, we would have never had a course in the first place. He worked right along with the rest of us, never faltering in his beliefs but I'm sure he isn't too disappointed either as he no doubt feels it is in good hands and I know this is all he really wanted. All in all, most everybody is satisfied and this is what counts. Good luck, fellows, and we're all behind you one-hundred per cent.

ONE MORE WORD: I glanced up in the trees on the right of number one fairway Sunday and noticed smoke billowing up. Upon examination, there was a spot about one foot in diameter burning and right in the middle was the butt of a filter cigarette, still not burned out. We stamped it out, but my point is that in a very few minutes, we could have had a major fire going. No doubt someone flipped it aside thinking the ground was still damp. Please, let's all stamp out our cigarettes good when playing there. It would absolutely ruin the course if we lost those beautiful trees.

You can't expect yesterday's Hot Water Heater to do today's chores
How many times lately at your house has the hot water *run out* right when you needed it most? That's because you're trying to do *today's chores* with *yesterday's* water heater.

DONNER DOINGS

By VIRGINIA O'BEAR

Not too many of us are discouraged by the light snowfall over the weekend. We know summer is just around the corner so we can dream of the warm days in the sun yet to come. The cold weather didn't damage our plants in the yard and the sweet peas are still popping out of the ground. Fishing has been very good with bundled up fishermen out determined to get their limits.

* * *

Mr. and Mrs. Bill Siemson of Santa Rosa paid us a surprise visit over the weekend with son, Jim. They caught some kokanee, too, and it was the first ones Bill ever caught from Donner Lake.

* * *

Mr. and Mrs. Jim Scott and daughters from Sacramento were weekend visitors at Donner Lake. Jim is publicity chairman, announcer and boat racer with the Northern California Outboard Association. He was looking over the course for the July 8 Regatta at Donner Lake and said all of the racers are anxious to race here as it is a challenge in this high altitude.

* * *

The Donner firemen met last Thursday evening at the fire house for a very inttresting meeting with members of the forest service. The next meeting will be May 24 at the fire house.

* * *

The Auxiliary of the Donner Lake Volunteer Fire Department will meet at Donlac this Thursday evening, May 17 with dinner starting at 7:30. Hostesses are Laura Horman, Nancy Brodie and Jerie Bonano. Remember to bring your coupons and your money for pepper and vanilla. The dinner will be a delicious one as Fran now has her new charcoal broiler going.

* * *

The Donner Lake School of Dancing will be resumed soon under the capable professional instruction of Estra Trotter. Miss Trotter is from Reno and taught at this school last year at the Pankokes. For further information contact Majel Rose or Pat Vind as these ladies are in charge. All types of dancing will be available for all ages.

* * *

Ken Adams came up from Grass Valley this week and again put me in charge of sending down some pretty girls to compete in the Maid of Nevada County contest. Richard Higgins will be a judge from this end of the county and has agreed to be chief judge in the preliminary judging June 9 of Miss Donner Lake. The five winners from the Miss Donner Lake contest will compete in the Maid of Nevada County preliminaries on July 14 and if they place in the top 10, will then compete July 28 for final judging at the Veterans Building in Grass Valley. Last year our three girls placed in the top ten with Clarita Richards being first runner up and Terry Beck placing fourth. Sandy Van Sickle was in the top running, too.

DISPUTE ARISES OVER AGGREGATE PLANT

The Nevada County Planning Commission on May 14 is expected to take action on a disputed application by the North Tahoe Transit Mix Company of Tahoe Vista for production of concrete aggregate at Hirschdale on the Truckee River east of here.

Residents of the area are protesting the issuance of the permit and the fish and game commissions in California and Nevada have set up a list of rigid recommendations providing the permit is issued.

Cecil Edmunds of Truckee, chairman of the commission, suggested that the matter be laid over from the last meeting to give the commission an opportunity to study the matter and obtain an opinion from the state water pollution control board.

MUCH WATER STILL IN HEAVY SNOW PACK

The United States Forest Service reports an average of 47.6 inches of water left in the snow pack near Huysink Lake.

The April 30 snow survey at the Huysink snow course was made on skis by Big Bend District Ranger Pete Wyckoff and John Corbett from the Tahoe National Forest supervisor's office.

Wyckoff reports the average depth of snow was 87.8, and the density was 54 per cent water. The water from this snow course drains into the north fork of the American River from the 6.600 foot elevation. For the information of fishermen, Huysink Lake at this same elevation was almost entirely covered with ice and snow.

MRS. BURLINGHAM IS FETED ON BIRTHDAY

Mr. and Mrs. A. E. Burlingham returned from a business trip to San Francisco and Sebastopol.

On April 27 Mrs. Burlingham was complimented at a birth date party, the highlight of the affair was initiating the chord organ, a gift of her son in law and daughter, Mr. and Mrs. Dee Ramsey of Sebastopol. A song fest was enjoyed by the musical guests.

BEAVERS APPOINTED TAHOE LAND AGENT

LAKE TAHOE—Tal Land Corporation announces the appointment of C. S. Beavers of Kings Beach as exclusive sales agent for the two luxury sub-divisions now under development on the west shore of Lake Tahoe.

Beavers, a long-time resident of Lake Tahoe, is well-acquainted with the area, having spent 14 years as forest ranger for the Tahoe National Forest, adjacent to the properties he now represents. Beavers has acted as sales agent for exclusive residential properties in Northern California and Nevada for a number of years.

Ground-breaking for improvements at Rubicon Palisades, a 101-lot sub-division located ½ mile south of Meeks Bay is now underway.

The second sub-division, Talmont Estates, is located 1.7 miles south of Tahoe City. Beavers said he expects the sales programs for both projects to be completed by early fall.

According to Joan Burnett, Tal Land advertising manager, the alpine development corporation selected the Lake Tahoe area because of their development plans are "in tune with the natural beauty of the terrain."

For Better Electrical Service

Your Directors of the Truckee Public Utility District are faced with a developing problem — that of extending and improving the electric department and at the same time maintain the present low rates.

Costs of providing service in the District have multiplied during recent years and the need for expansion in a fast-growing community are apparent.

In order to maintain present rates, it becomes necessary to discontinue cash discounts on bills, a policy which will go into effect July 1, 1962. This will not offset the rising costs of service, but will go a long way in eliminating losses by the District, and at the same time assist materially in improving and expanding electric services.

It is the desire of your Directors that the discontinuance of the discout be a temporary measure and that it can be resumed as soon as feasible.

PLANT PROGRESSING ON DONNER FIRE AREA

Contractors and forest service crews are engaged in planting approximately 160,000 ponderosa pine trees in the Billy Hill area east of Highway 89 where the area was ravaged by a forest fire two years ago.

Forest Ranger George Steed of the Truckee District of the Tahoe National Forest, said approximately 400 acres will be planted, with the contractor Orlo Fletcher assigned to 300 acres and the forest service men to approximately 100 adjoining acres.

This marks the first planting on the Donner Ridge burn and the area was selected and prepared for the plant last year. The project is expected to be completed within two weeks, Steed said.

J. C. Domergue, your Telephone Manager in Tahoe City

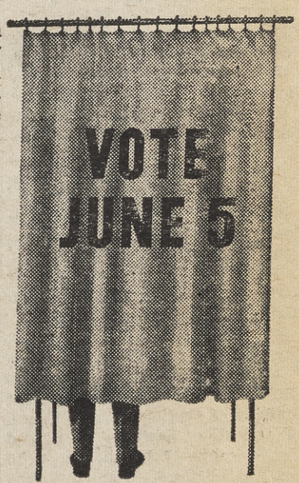

Making summer vacation plans? A long distance call is your surest guarantee you'll have just the reservations you want when you arrive at your vacation spot. Along the way, you'll want to call ahead to friends or relatives to let them know you'll be in town. Settling details by long distance is part of the fun of going places.

When you get there, a call to the folks back home, to let them know you're "having a wonderful time," is one more way your telephone can help make your vacation a happy one.

Tuesday, June 5th, will be an important day for every citizen interested in good government. I'm sure that means all of us. Because June 5 is the day we select state and congressional office candidates for the general election next fall.

While the primaries are next month, many people are starting to bone up on the candidates now, learning about them, their records, and what they stand for. Seems to me that's a mighty good way to help select those best qualified.

By the very nature of our business, you often come in contact with telephone people here in town. You talk with people in the business office and our operators, see installers and other telephone men busy around town. If it seems like a good many folks work for the phone company, you're right. We've got 55 people on the payroll right here in the Tahoe Truckee area.

Naturally the best part of their paychecks is spent here, with local merchants and businesses. In this way, telephone people are helping add a big boost to the economy of the Tahoe Truckee area.

More meaningful goals are attained through spiritual enlightenment. This is a theme of the lesson-sermon "Mortals and Immortals" which will be heard Sunday in Christian Science churches.
Pauls admonition to the Colossians (3) will be among the scriptural passages: " Set your affection on things above, not on things on the earth."
Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (p. 256): "Advancing to a higher plane of action, thought rises from the material sense to the spiritual, from the scholastic to the inspirational, and from the mortal to the immortal."
The Golden Text is from Romans (8): "If ye live after the flesh, ye shall die: but if ye through the Spirit do mortify the deeds of the body, ye shall live."

NEUGEBAUER MAKING BID FOR JUDGESHIP

KINGS BEACH — Jack Neugebauer, who recently announced he will be a candidate for the office of judge of the Tahoe Judicial District Court was born and raised at Roseville.

Jack Neugebauer

During World War II he was a member of the United States Coast Guard. He moved to Truckee in 1946, where he served four years on the Truckee Public Utility Board as a director. He was appointed to serve on the Nevada County grand jury for one year.

Neugebauer has been a resident of Placer County for 21 years and has been in business in Kings Beach for the past seven years. He is a home owner at Agate Bay where he resides with his wife and three sons, who attend the Kings Beach elementary school.

On April 15, 1961, he passed the qualifying examination given by the California State Judicial Council making him eligible to seek the office of judge for the justice court.

To be eligible for this office by California law, one must be either, an attorney or pass the qualifying examination given by the Judicial Council. Of the 298 justice court judges in California, 69 are attorneys and 229 are otherwise qualified. In Placer County two are attorneys and five are qualified.

Due to the fact that no one filed for the office of judge on the June 5 election no names will appear on the ballot. This office will be selected by a "WRITE-IN" vote.

"If elected," Neugebauer states, "I will devote every day to the business of the court without any interference from my personal business."

WASHOE WILL BUY LAKE SCHOOL SITES

RENO — The Washoe County School Board has instructed Superintendent of Schools Procter Hug, Sr. to enter negotiations with the Crystal Bay Development Co. for the purchase of a six-acre school site at Crystal Bay.

The proposed site next to a shopping center in the Incline Village development was offered to the board at $12,000 an acre including improvements. Hug was also told to pick up options to buy other school sites in the development. The district has two years to pick up the options at the same price.

If all goes well a school could be opened at the fast growing resort by September, 1964, Hug said. Plans will have to be in by next January to do it, he said.

MOVE LAUNCHED TO SPLIT SCHOOL AREA

TAHOE CITY—A move to split the Tahoe Truckee Unified School District, to make North Tahoe a separate entity, was launched last week when a meeting of Tahoe City residents was held with County Superintendent Al Bequette to discuss the proposal.

Bequette pointed out the steps necessary to determine if the proposal is feasible but was not encouraging toward a divided district.

A petition signed by 250 voters endorsing the proposal would be the first step necessary, followed by approval of the county committee on school organization and perhaps the state board of education.

Many feel that a new building for high school students and additions to the present elementary schools are in order for North Tahoe and a questionnaire to be sent voters prior to a second bond election will determine this question, District Superintendent John Corbin explained . The board will decide at its June 4 meeting if and when another bond election will be held, but first members will determine the wishes of the voters of the district on expanded facilities.

RABIES VACCINATION DATE IS ANNOUNCED

TAHOE CITY—A rabies vaccination clinic, sponsored by Dr. S. M. Dingwall and in cooperation with the Placer County Health Department, will be held at the Lake Tahoe Veterinary Hospital on Saturday, June 9.

Because there is no veterinary service available in this area until this time, there will be no licensing penalty for local residents for failure to license their dogs before this time.

The Lake Tahoe Veterinary Hospital is located near Tahoe City on the Truckee River. The charge for this service will be a special clinic rate of of $2 per vaccination.

SIERRA PACIFIC WILL INSTALL NEW PLANT

Progress on the Sierra Pacific Power Co.'s Tracy Power Station has jumped ahead by eight to ten million dollars with ordering of a new steam power plant. The Tracy station is 17 miles east of Reno on Highway 40.

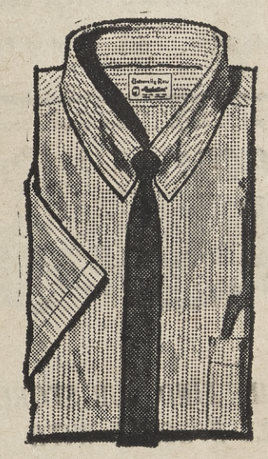

Fred L. Fletcher, president of Sierra Pacific, announced the purchase. He said the turbine generator for the big steam plant will be built by Westinghouse Electric Corp. with a capability of 82,500 kilowatts and is to go into operation in 1965.

By the time the second steam plant is completed, just three years from now, the new generating station will have cost the power company more than $20,000,000.

Powerful enough to provide more than half the amount of electricity the power company's entire electrical network uses now, the second steam plant is even larger than was previously announced in the company's long-range generating plants for Tracy Power Station.

The newly ordered steam plant will be the fourth generating unit at Tracy Power Station. One oil fired 12,500 kilowatt turbine generator has been in service since late 1961. A second just like it is in place and expected to be in operation in June. Concrete foundations are being poured now for the first 53,000 kilowatt steam power plant, to be in operation in 1963, and the one just announced is scheduled to be ready for use in 1965.
